 C. William Hetzer, Inc.  
 Water Systems Council  
 William H Gordon & Associates  
 Panhandle Builders

SEPTEMBER 12—13, 2007

NATIONAL CONSERVATION TRAINING CENTER

SHEPHERDSTOWN, WEST VIRGINIA

## GROWING COMMUNITIES ON KARST—2007

*Growing Communities on Karst* is a unique workshop that brings together geologists, engineers, land use planners, and remediation specialists to discuss and demonstrate how to manage development pressures in a carbonate rock region.

This year *Growing Communities on Karst* brings a West Coast perspective to managing development on sensitive lands and dealing with remediation of previously contaminated lands. We are pleased to present two featured speakers, Charles Robinson developer of *Guaranteed Site Solutions* for resolving sensitive land development issues, and Timothy Swickard, former Director and Chief Counsel for California EPA, a specialist in toxic land remediation.

Practical demonstrations of sinkhole remediation and geo-textile installation top off two days of informative presentations. Learn how incentives offered for responsible development can work for development, see new equipment and procedures for sinkhole and aquifer detection. Hear about case histories of brownfield redevelopment. Register today for this popular workshop planned to meet the needs of our growing communities.

### Who will benefit from attending *Growing Communities on Karst*?

- \* City and county planners
- \* Watershed and storm water managers
- \* Public works staff
- \* Transportation officials
- \* Engineers
- \* State and Federal agency staff
- \* Realtors and developers
- \* Local and state officials
- \* Landscapers and urban foresters
- \* Contractors

Continuing Education Credits may be available. Please contact your certifying agency for more information. Request assistance from Potomac Headwaters RC&D by forwarding the certifying agency's point contact for consideration and approval.

### Wednesday, September 12, 2007

- 8:30** Registration Opens  
Potomac Headwaters RC&D
- 9:15** Welcome—Jesse Richardson
- 9:30** Introduction to Karst in the Great Valley  
Dr. Barry Beck
- 10:15** Break
- 10:30** Developing Environmentally Sensitive Lands  
Charles E. Robinson, PE *LFR Inc.*
- 11:00** Brownfields Incentives  
Timothy J Swickard, Somach, Simmons, &Dunn
- 11:45** Lunch
- 1:00** Sinkhole Remediation Efforts at NCTC  
Twila Carr, WVDEP  
William H Gordon & Associates  
Triad Engineering
- 2:00** Break— Reconvene at Field Demonstration
- 2:30** Sinkhole Remediation Demonstration  
Steve LaRue, C. *William Hetzer, Inc.*
- 3:30** First day of conference ends

### Thursday, September 13, 2007

- 8:30** Registration Opens
- 9:00** Day 2 Kick off—Jesse Richardson
- 9:15** Local Government Initiatives  
Berkeley County, WV Engineering
