

**WTKN**

Western Transportation  
Knowledge Network

**WTKN, the Western Transportation Knowledge Network: Facilitating transportation-related research and implementation by connecting information and resources to users.** Network members are state DOTs, transit agencies, MPOs, academic institutions and private sector firms from the western U.S. (AASHTO Region 4). We share information, ideas and expertise to help support our individual organizations while helping to develop the nation's transportation information infrastructure.
